

PROVIDER ALERT

HURRICANE SANDY ASSOCIATED COSTS

NOVEMBER 16, 2012

The State of Maryland has requested a Presidential declaration for Hurricane Sandy. As we await this decision, attached is some information for Private Non-Profit Organizations, so that they can collect their data and costs associated with Hurricane Sandy.

Estimated costs should be submitted to the Local Office of Emergency Management Office. Specific questions should also be directed to the Local Office of Emergency Management since each jurisdiction has their own process of handling FEMA reimbursement requests. If a Private Nonprofit Organization does not have this contact information, please ask them to go to the MEMA website: memamaryland.gov and then choose the tab MEMA Community. The Emergency Managers are listed on the left side.

The use of generators and fuel are eligible expenses.
