At the request of the Maryland Department of Health (MDH), Beacon has revised the audit tools impacting various Provider Types (PT) and levels of care. The chart below identifies the level of care, PT, and audit question number impacted.

Level of Care	Provider Type	Audit Question #
OTP	PT 32	13
Level 1	PT 50	10
Level 2.1	PT 50	11
OMHC	PT MC	13
MH IOP	PT MC	12
Mobile Treatment	PT MT	12

PRP - Minor	PT PR	13

The new question replaces the old question related to transition plans. The new question states:

“Does the record reflect the development of a transition plan, if the individual is discharged?”

This change will take effect beginning on April 1, 2019. Updated audit tools and accompanying definition tools have been uploaded to the Beacon website.
